

Company Policy Handbook

1. Code of Conduct

All employees are expected to act with integrity, respect colleagues, and comply with local laws in every jurisdiction where the company operates. Violations of the code of conduct are investigated by the Ethics and Compliance department and may result in disciplinary action up to termination.

2. Data Security Policy

Employees must not store confidential company data on personal devices. All company laptops are encrypted by default. Any suspected data breach must be reported to the Security team within 24 hours of discovery. Failure to report a known breach is a serious policy violation.

3. Travel and Expense Policy

Business travel must be booked through the approved corporate travel portal. Economy class is standard for flights under 6 hours; business class requires Director approval. Per diem rates vary by city tier and are published annually by the Finance department.

4. Anti-Harassment Policy

The company maintains a zero-tolerance policy toward harassment of any kind. Employees who experience or witness harassment should report it to HR or through the anonymous ethics hotline. All reports are investigated confidentially, and retaliation against a reporting employee is strictly prohibited.

5. Remote Work Eligibility

Remote work eligibility is determined by role type and department needs. Engineering and design roles are generally eligible for hybrid arrangements. Client-facing roles require manager approval on a case-by-case basis. All remote work arrangements are reviewed annually during performance cycles.
